

CUMMINS X12™ ENGINE

The biggest payload in concrete

At a remarkably low engine weight of just 2,050 lbs., your mixer will haul more with the X12 from Cummins. With improved Total Cost of Ownership and industry-leading maintenance intervals, the X12 is the engine you can rely on to keep the drum spinning.

13L power at 11L weight

- Highest power-to-weight ratio from 10L to 16L
- Power curve shaped for better performance
- Optional air compressor resonator that reduces engine noise for even more driver comfort
- 2,000-RPM governed speed for more gear ratio options and greater acceleration
- Available with Rear Engine Power Take Off (REPTO)

Bottom-line friendly

- Up to 2.5% better fuel economy than previous X12, and up to 8.5% fuel economy improvement over ISX12
- Industry-leading 1,500 hour/18-month oil drain interval
- Lower operating costs
